International calling rates apply to voice calls to many satellite phones. Depending on your cellular or PSTN carrier, these rates can be \$5 to \$10 per minute. VOCO dramatically lowers the cost of these calls and allows you to affordably call any satellite phone via a local number. Calls to this VOCO local number are

automatically routed to your satellite phone wherever it is in the world, then billed at a fixed per minute basis rather than the extreme rates long distance carriers will charge persons attempting to speak with you.

Yes, please add VOCO calling to my satellite plan for \$10 per month plus calls. (\$12 activation fee applies)

SnapTrack is OCENS response to the requests of many of our customers for a clean and simple solution to the tracking question. SnapTrack shortens the path from where you are in even the most remote of locations to a screen that captures the

'where' of your wanderings. SnapTrack is compatible with most satellite phones.

Iridium GO! Service Agreement

OCENS, Inc. Satellite Airtime Services Terms & Agreements

1. Availability of limited service: Service is generally available to satellite terminals equipped for this service when within the satellite footprint. Service is furnished to Customer or Customers authorized user. A telephone number may not appear in more than one terminal. Customer has no property right in such number. OCENS reserves the right to assign, designate, or change such number, when, in its sole discretion, such action is reasonably necessary in the conduct of business;
2. Voice and Data Transmission Use and Dropped Calls: Due to the technical nature of data setups and the inherent sophistication of voice and data transmission through a variety of satellites, systems and networks, OCENS makes no representation as to the success of voice and data calls through the system. Customer agrees that all voice and data call attempts regardless of ultimate successful transmission and termination will be paid for and no credits will be given in the event of disputes of this nature. Along with potential incorrect use (i.e., next to a building/obstruction), satellite systems have inherent flaws and anomalies that can create dropped calls of either voice or data nature. Dropped calls will not be credited. OCENS can provide data setup technical support beyond the normal provided setup instructions at an additional charge. Please consult with OCENS sales representative for further details;
3. Customer agrees to remain as a subscriber of the service for at least the Minimum Term or Duration associated with the airtime plan they have chosen in this service agreement. Customers terminating their service prior to the completion of any Minimum Term identified in the subject service agreement are responsible for payment of the balance of the monthly fees still pending on the contract and any other early termination penalties applied by the airtime provider;

5. Contractual Limitations: During the contract period, customer may change their pricing plan to a higher bundle (more megabytes or minutes) free of charge but in doing so will renew the applicable minimum contract period. Megabytes or minutes available in the new plan for the remainder of the upgrade month will be pro-rated based on the number of days remaining in that calendar month. If the upgrade occurs within a month, no credit will be given towards the previously active plan's service or consumption fees;
6. **Account activation, renewal and deactivation: Accounts activated within a given month are billed on a pro-rated basis for the activation month using the number of days remaining in that activation month. Deactivated accounts are NOT pro-rated by the date of deactivation within a calendar month and full month payments of the postpaid monthly fee are due regardless of date of deactivation in the subject month.**
 - a) **Account deactivation request: Airtime accounts are automatically renewed on their presently active account service plan unless a written request for deactivation (or request to be moved to standby, see 6b below) is received by OCENS by no later than the 25th day of the deactivation month. Such written confirmation from an account holder specifying that they desire that their account be deactivated must be sent to admin@ocens.com. Communication should specify the desired Deactivation Date, and the SIM or MSISDN number of the subject account. If all terms under which the airtime sim was originally activated have been met by the requested Deactivation Date and all outstanding fees are paid, OCENS will complete the requested deactivation of the airtime account no later than at the calendar month end.**

9. Taxes: The price of the service does not include sales, usage, excise, ad valorem, property or any other taxes now or hereafter imposed, directly or indirectly, by any governmental authority or agency with respect to the service. Customer shall pay such taxes directly or reimburse OCENS for any such taxes;
10. Deposits: Mobile satellite services are granted subject to credit approval by OCENS. OCENS requires the establishment of credit or the ability to pay invoices according to the established terms. Deposits may be required for non-US citizens or customers who do not have established credit. Customers will be advised prior to service activation if a deposit is required. Deposits will be applied to open balances at end of contract or refunded at service or contract termination if no such open balance exists;
11. Foreign Credit Cards: Foreign credit cards will be accepted only after a complete verification has been done with the issuing bank.
