To return equipment in the same condition as received, less reasonable wear and tear and agree to pay the "Equipment Value" amount if the materials are not so returned. OCENS can put a hold on Client's credit card to cover the retail value of the equipment and make an immediate charge for the rental period reserved herein. On termination of the rental agreement, or periodically during the rental period, all amounts including rental, shipping, and airtime charges can be charged to the named account(s). A late charge of the lesser of 1- 1/2% per month or the maximum rate permitted by law may be applied to any amount not paid when due. Client shall pay all costs including, without limitation, court costs, attorney fees, the fees of any collection agency and any other costs incurred by OCENS in exercising or defending any term of, or right under, this Agreement. Client agrees that this contract shall be governed by the laws of the State of Washington, without regard to its conflicts or choice of laws, and that sole venue shall be in Seattle, King County, WA, USA.

To recognize that others are waiting to use the rented equipment and late returns will result in additional rental charges to you and inconvenience to other OCENS' customers. You agree, acknowledge and confirm that the limitations of liability set out in this Agreement are fair and reasonable in the commercial circumstances of this Agreement and that OCENS would not have entered into this Agreement but for your agreement to limit OCENS' liability in the manner, and to the extent provided herein.

Broadband service call-out:

1. Satellite broadband terminals such as the GO Exec are NOT recognized as maritime distress devices, and customer understands that they should not be used for "SAFETY AT SEA" purposes.
3. To enhance your experience with your GO Exec, use it with bandwidth conservation apps and services from OCENS and/or turn off or uninstall from your computer bandwidth hungry applications and programs, cloud-based services (eg iCloud, DropBox, Google Drive and others), software and operating system updates, VOIP clients (eg Skype and others), mobile device apps, malware and/or adware. All of these applications will run in the background and could make use of the Internet Connection established with your GO Exec. In doing so, they will consume bandwidth at unpredictable levels.

Voice and Data Transmission Use and Dropped Calls: Due to the technical nature of data setups and the inherent sophistication of voice and data transmission through a variety of satellites, systems and networks, OCENS makes no representation as to the success of voice and data calls through the system. Customer agrees that all voice and data call attempts regardless of ultimate successful transmission and termination will be paid for and no credits will be given in the event of disputes of this nature. Along with potential incorrect use (i.e., next to a building/obstruction), satellite systems have inherent flaws and anomalies that can create dropped calls of either voice or data nature. Dropped calls will not be credited. OCENS can provide data setup technical support beyond the normal provided setup instructions at an additional charge. Please consult with OCENS sales representative for further details.

Governing Law: This contract is governed by the laws of Washington State and applicable tariffs;

CUSTOMER AGREES THAT ANY LEGAL PROCEEDING COMMENCED BY ONE PARTY AGAINST THE OTHER, SHALL BE BROUGHT IN ANY STATE OR FEDERAL COURT HAVING PROPER JURISDICTION WITHIN THE STATE OF WASHINGTON. BOTH PARTIES SUBMIT TO SUCH JURISDICTION AND WAIVE ANY OBJECTION TO VENUE AND/OR CLAIM OF INCONVENIENT FORUM.
